SYED REHAN SYED HAMEDSALEEM

DATA ANALYST

Beed, Maharashtra | +91 84465 81996 | syedrhn0@gmail.com | linkedin.com/in/syedrhn0 | github.com/syedrhn0

PROFESSIONAL SUMMARY

Data Analyst with postgraduate training in Machine Learning & AI and hands-on project experience in SQL, Python, Power BI, Tableau, and Advanced Excel. Built end-to-end analytics projects covering MySQL data pipelines, interactive Power BI dashboards, KPI reporting, and predictive modeling with XGBoost. Strong in data cleaning, exploratory data analysis, statistics, and storytelling with data, turning raw datasets into clear, decision-ready insights for business stakeholders.

SKILLS

Data Analysis: Python (Pandas, NumPy, Matplotlib), SQL, Excel (Advanced), Data Cleaning, Data Transformation, Exploratory Data Analysis (EDA), Statistical Analysis, Trend Analysis, Root Cause Analysis

Business Intelligence: Power BI, Tableau, DAX, Power Query, Data Visualization, Interactive Dashboards, KPI Reporting, Business Reporting, Data Modelling

SQL & Databases: MySQL, Data Extraction, Joins, Subqueries, CTEs, Window Functions, Aggregations

Machine Learning: Scikit-learn, Regression, Classification, Clustering, Feature Engineering, Model Evaluation, Predictive Modeling

Tools & Platforms: Jupyter Notebook, Google Colab, Streamlit, Git, GitHub, Snowflake

Professional Skills: Analytical Problem Solving, Data-Driven Decision Making, Process Automation, Stakeholder Communication

PROJECTS

The AI Layoff Myth – What the Data Actually Says

Tools: MySQL, Power BI GitHub

- Analyzed 4,337 layoff events (2020–2026) to test whether AI is actually driving workforce reductions, and presented findings through interactive Power BI reports.
- Cleaned and transformed raw data in MySQL using staging tables, deduplication, and analytical views before connecting the results to Power BI.
- Designed an era-based framework (Pandemic → Correction → AI Pivot) to compare layoff patterns and workforce impact across periods.
- Key insight: only 52% of major 2026 layoffs cited AI, and most of those companies grew headcount overall, suggesting AI is reshaping roles more than eliminating jobs.

Dark Store Inventory Intelligence System – Stockout Prediction & Dynamic Reorder Optimization

Tools: Python, Pandas, NumPy, Scikit-learn, XGBoost, Streamlit GitHub | Live Demo

- Built an end-to-end inventory analytics system on 80,700+ records to predict SKU stockouts within 48 hours and generate dynamic reorder recommendations.
- Engineered 30+ demand and inventory features and trained an XGBoost classifier with 75.7% recall (prioritized to minimize costly missed stockouts), 27.6% precision, and 40.4% F1-score on the test set.
- Developed a Streamlit application for SKU-level prediction, batch forecasting, and model performance tracking.

PROFESSIONAL EXPERIENCE

Rahul Bora Engineers & Associates | *Civil Engineer* Jun 2022 – Jun 2024 | Beed, Maharashtra

- Built Excel-based calculation, quantity estimation, and cost models for construction projects, linking formulas to input parameters to eliminate repetitive manual updates.
- Automated extraction and formatting of design output values for 40+ structural members per project into a ready-to-use Excel sheet, removing a separate manual data-entry task.
- Created a dropdown-driven Excel tool (predefined lists) that automatically updated multiple dependent calculation cells for checking and validation.
- Automated conversion of final estimate amounts from numbers to words using Excel formulas, reducing manual work and improving document consistency.
- Proposed a Project Management Consultancy (PMC) service concept and delivered a presentation on its potential implementation within the organization.

EDUCATION

M.Tech, Structural Engineering – P.E.S College of Engineering, Dr. BATU, Lonere | CGPA: 8.11/10 2018 – 2021

B.E., Civil Engineering – P.E.S College of Engineering, Dr. BAMU, Aurangabad | 67.33% 2014 – 2018

CERTIFICATIONS & TRAINING

Postgraduate Program in Machine Learning & Artificial Intelligence – Imarticus Learning 2025 – 2026

Key Areas: Python, SQL, Statistics, Machine Learning, Power BI, Advanced Excel

- **Data Analysis Techniques** – IBM 2026
- **Introduction to Data Science** – Cisco Networking Academy 2026
- **Google Cloud Gen AI Academy APAC 2026** – Hack2skill 2026
- **TCS iON Career Edge – Young Professional** – TCS iON 2026
